

Another Phlebology
4th International Workshop
and
13th Balkan Venous Forum
meeting
With the support of UIP
4-5 October 2024

Preliminary Scientific Program of the 4th Another Phlebology Congress

04. 10. 2024 Friday

8.00 - 9.00 Hands-on workshop. Attila Puskas (Romania): US examination of deep and perforating veins.
(Separate registration required)

Opening ceremony. Keynote lectures (Chair: A Nicolaides, I Bihari)

- 9.00 - 9.20** 1.1 Welcome. What is Novelty Factor? **Imre Bihari (Hungary)**
9.20 - 9.40 1.2 Highlights and Controversies in the 2024 International Guidelines on VTE. **Andrew Nicolaides (Cyprus)**
9.40 - 10.00 1.3 Venous Guidelines of the AVF. **Peter Gloviczki (USA)**

Pathophysiology. US diagnosis (Chair: P Gloviczki, A Giannoukas)

- 10.00 - 10.12** 2.1 Venous Circulation in the Space. **Monika Gloviczki (USA)**
10.12 - 10.24 2.2 Duplex Immediately Following Thermal Truncal Ablation Should Not Be Performed. **Lowell Kabnick (USA)**
10.24 - 10.36 2.3 Intermingling of Hemodynamic and Cell Pathology Components in the Pathomechanism of the Lower Extremity Chronic Venous Disease. **György Nádasy (Hungary)**
10.36 - 10.48 2.4 The Story of the Unforgiving Vein - or How to Treat the Popliteal Fossa Perforating Vein. **Frantisek Zernovicky (Slovakia)**
10.48 - 11.00 2.5 Popliteal Vein Entrapment Syndrome: Report of Three Recent Cases with our Institutional Experience. **Yohei Yamamoto (Japan)**
11.00 - 11.12 2.6 What Flows Within the Solidified Glue? **Imre Bihari (Hungary)**
11.12 - 11.15 Discussion

11.15 - 11.40 Coffee break

Surgical and endovenous interventions on varicose veins (Chair: F Zernovicki, G Menyhei)

- 11.40 - 11.52** 3.1 New Superficial Devices for Truncal Ablation Undergoing Trials. **Lowell Kabnick et al (USA)**
11.52 - 12.04 3.2 Are All Lasers And FA Devices Equivalent? Review Of The Literature. **Alvaro Orrego (Chile)**
12.04 - 12.16 3.3 Treating Varicose Veins with Conservative Surgical Techniques: Insights from Our Practice. **Luminita Vescu (Moldova)**
12.16 - 12.28 3.4 Concomitant Mini Phlebectomy vs. Staged with Endovenous Laser Ablation (EVLA). **Mohamed Mahmud (Bosnia - Herzegovina)**
12.28 - 12.40 3.5 Open Redo Groin Surgery is Still a Valid Option for Groin Recurrence Following Endovenous Ablations. **Olle Nelzén (Sweden)**
12.40 - 12.52 3.6 15 Year Experience in Laser Crossectomy. **Imre Bihari (Hungary)**
12.52 - 13.00 Discussion

Lunch break

VTE prevention and treatment (Chair: M Gloviczki, O Nelzen)

- 14.00 - 14.12** 4.1 Management of High-risk Superficial Vein Thrombosis. **Athanasios Gianoukas (Greece)**
14.12 - 14.24 4.2 How Vascular Ultrasound can Help the Prevention or Effective Treatment of Pulmonary Embolism? **Zsolt Pécsvárady (Hungary)**
14.24 - 14.36 4.3 Thromboprophylaxis after endovenous procedures: a survey in Hungary. **Gabor Menyhei (Hungary)**
14.36 - 14.48 4.4 Mini-invasive technologies (EVLT, RFA, Ultrasound-Guided sclerotherapy) in the treatment of patients with superficial vein thrombosis on the background of varicose veins. **Sergei Shuchkin (Ukraine)**
14.48 - 14.50 Discussion

Servier symposium

- 14.50 - 15.05** Conservative therapy of CVD in the aspect of new RWE study and survey data. **Zsolt Pécsvárady (Hungary)**

Postthrombotic syndrome and crural ulcer (Chair: Zs Pécsvárady, R Varghese)

- 15.10 - 15.22** 5.1 Left ovarian vein transposition as a simplified surgical approach for the treatment of nutcracker syndrome. **Vladimír Kovacs (Slovakia)**
15.22 - 15.36 5.2 How to manage Nut-cracker Syndrome? **Nadjib Bouayed (Algeria)**
15.36 - 15.48 5.3 Removal of Spontaneous Palma-arch. **Imre Bihari (Hungary)**
15.48 - 16.00 5.4 EVLA in patients with venous ulcers. **Sergei Karniyevich (Belorus)**
16.00 - 16.12 5.5 Static Foot Disorders and Atypical Venous Ulcers in the leg. **Roy Varghese (India)**
16.12 - 16.24 5.6 Role of medical honey in medicine. **Tanja Rucigaj (Slovenija)**
16.24 - 16.36 5.7 Treatment of venous ulcers. **Hakan Uncu (Turkey)**
16.36 - 16.48 5.8 "Just a Quick Wound Treatment"- Leg Ulcer Based on Massive Lymphoedema. **Tamás Tóth (Hungary)**

19.00 - 22.00 Gala Dinner (Separate registration required)

05.10.2024 Saturday

Keynote lecture (Chair: I Bihari)

8.30 - 9.00 6.1 New results in lower limb haemodynamics. **Sergio Giancesini (Italy)**

Aesthetic phlebology (Chair: Gy Szolnoky, T Rucigaj)

9.00 - 9.12 7.1 Unwanted Veins of the Forearm and the Hand: Treatment Options. **Alexander Flor (Austria)**
9.12 - 9.24 7.2 Aesthetic aspects of sclerotherapy, with a special reference to hyperpigmentation. **Éva Szabó (Hungary)**
9.24 - 9.36 7.3 Decreasing skin inflammation after venous treatments through the use of Broad Band IPL. **Alvaro Orrego (Chile)**
9.36 - 9.48 7.4 Treatment of Periorbital Veins with Long-Pulse Nd:YAG laser. **Rolandas Dagilaitis (Lithuania)**
9.48 - 10.00 7.5 Treatment of reticular and spider veins. **Alexander Flor (Austria)**

Poster session (6 min presentation followed by 2 min discussion) (Chair: M Simka, H Unku)

10.00 - 10.08 8.1 Cerebral venous thrombosis. **Nadjib Bouayed (Algeria)**
10.08- 10.16 8.2 Persistent sciatic vein in a patient with an episode of pulmonary embolism. **Oksana Riabinska (Ukraine)**
10.16 - 10.24 8.3 Truncal varicosity in the shape of “S”: diagnosis and therapeutic options. **Attila Puskas (Romania)**
10.24 - 10.32 8.4 Treatment of venous ulcers with foam sclerotherapy. **Anel Okic (Bosnia - Hercegovina)**
10.32- 10.40 8.5 Using a Totally Implantable Venous Access Device in the Presence of Pre-existing Internal Jugular Vein. **Dimitar Andronov (Bulgaria)**
10.40 - 10.48 8.6 Knee Phleboarthrosis Patients’ Quality of Life. **Ernest Shcheglov (Russia)**
10.48 - 10.56 8.7 Innovative Combined Approach in Endovenous Treatment of Varicose Veins of the Lower Limbs. **Nasrat M. Shah (Bulgaria)**
10.56 - 11.04 8.8 Therapeutically management of an obese patient diagnosed with venous leg ulcer, the story of a quick healing – A case report. **Sergiu-Ciprian Matei (Romania)**
11.04 - 11.12 8.9 Features of the clinical course and treatment of relapse of varicose veins caused by reflux along the accessory small saphenous vein. **Umarov F.R. (Uzbekistan)**
11.12 - 11.20 8.10 An Open-Label First In Man Usability And Safety Investigation With An Intravenous Injection Technique To Deploy Tumescence During Laserablation Of The Great Saphenous Vein. **Michael Akesson (Sweden)**

11.20 - 11.50 Coffee break

Conservative treatment (Chair: S Giancesini, I. Rozsos)

11.50 - 12.02 9.1 Multimodality of Sulodexide. Gyozo Szolnoky, Alejandro Gonzalez-Ochoa **(Hungary, Mexico)**
12.02 - 12.14 9.2 Watch the heart in lymphedema: it varies under compression. **Gyozo Szolnoky (Hungary)**
12.14 - 12.26 9.3 Enhancing Wound Healing: Evaluating the Efficacy of Combined Physical Therapies. **Zbigniew Rybak (Poland)**
12.26 - 12.38 9.4 The impact of inflammatory markers and obesity in chronic venous disease. May it be inflammation and obesity management a new target in improving treatment outcomes. **Sergiu-Ciprian Matei (Romania)**
12.38 - 12.40 9.5 How To Breathe During Strengthening Physical Exercises - Functioning Of The Terminal Valve of the Saphenofemoral Junction During Normal Breathing, **Valsalva Manoeuvre And Ujjayi Breath Marian Simka (Poland)**

12.40 - 13.40 Lunch break

Balkan Venous Forum Session (Chair: A Flor, A Puskas)

13.40 - 13.52 10.1 The role of great saphenous vein diameter on endovenous thermal ablation outcomes. **Christos Karathanos (Greece)**
13.52 - 14.04 10.2 The role of swab in detecting infection of chronic wounds. **Tanja Planinsek Rucigaj (Slovenija)**
14.04 - 14.16 10.3 Innovative Combined Approach in Endovenous Treatment of Varicose Veins of the Lower Limbs. **Nasratullah Mobarakshah (Bulgaria)**
14.16 - 14.28 10.4 Perforator vein glue treatment with no immune response. **Imre Bihari (Hungary)**
14.28 - 14.40 10.5 Spontaneous iliac vein rupture. **Petrika Gjergo (Albania)**

Endothermal methods (Chair: L Kabnick, S Shuchkin)

14.40 - 14.52 11.1 Is Compression Necessary Post Thermal Ablation of Truncal Veins. **Lowell Kabnick (USA)**
14.52 - 15.04 11.2 Microwave surgery for varicose veins. **Istvan Rozsos (Hungary)**
15.04 - 15.12 11.3 The Role of Perforating Vein Intervention in Enhancing Efficacy of Stripping and Endovenous Laser Ablation for Lower Limb Venous Insufficiency: A Clinical Investigation. **Hasib Mujić (Bosnia - Herzegovina)**
15.12 - 15.24 11.4 EVLA with or without Miniphelectomy? Algorithm or Art? **Olga Pozniakova (Belarus)**
15.24 - 15.36 11.5 Cryo and HIFU Cavitation **(René Milleret, France)**

Liquid and foam sclerotherapy (Chair: E Szabo, Z Rybak)

15.36 - 15.48 12.1 Vulvar Varicose Veins - State of the Art. **Frantisek Zernovicky (Slovakia)**
15.48 - 16.00 12.2 Different Natures of Polidocanol Foam. **Alvaro Orrego (Chile)**
16.00 - 16.12 12.3 Early Results of the Treatment for Saphenous Incompetence Using “Sandwich” Application of Cyanoacrylate Glue Together with Foam Sclerotherapy. **Marian Simka (Poland)**
16.12 - 16.20 Discussion

16.20 - 16.35 Closing remarks and awarding prizes **(Another Phlebology Prize, v-WIN Prize) (Chair: S Giancesini, I Bihari)**

Oral presentations are 8 min long followed by 4 min discussion

Poster presentations are oral, 6 min long followed by 2 min discussion
